Wintertime & the London Underground

Presented by
Steve

Thursday 12 November 2026

Venue: A Transport for London building, to be advised

Commencing at 5:30pm GMT

Talk synopsis

For the most part Londoner **Underground** is not actually underground, it is buncovered.

How does LU cope with conditions of ice, snow, fog, leaf-fall and the other difficulties of operating a surface railway in wintertime?

Speaker biography

Steve's first role at London Underground was as Control Equipment Engineer in the Rolling Stock department - part of Professional Services Group & based at Acton Works.

As part of the Engineering Refocus he took on the role of Team Co-ordinator for the Central line team in Trains Delivery Groups based at 30 the South Colonnade, Canary Wharf before moving on to lead the District and Piccadilly line team.
